

## **Test Approach**

End-To-End Testing for Guest and Logged-In User covering every Functionality of the application that includes both Happy-path and Negative Scenario.

Developed Requirement Traceability Matrix in the analysis phase followed by the list of scenarios to be executed.

Test	Approach
------	----------

① Guest User

Key	Desc	TC desc	Automation feasibility	Execution status	Project ID
Registered User ✓	Account user login status	with logging can login	Yes	Pending	None
	Shopping basket				

[illegible]

enable register built on  
only when all fields are
